Re: **Pharmacia's CBI Response to U.S. EPA' Request for Information
Pursuant to Section 104 of CERCLA for Milwaukee Die Cast at 4132
North Holton Street, Milwaukee, Wisconsin.**

Dear Mr. Ryczek:

I write on behalf of Pharmacia Corporation to supplement my April 11, 2011, correspondence responding to the above-referenced request for information and documents (the "Request"). With that correspondence I enclosed a compact disc containing electronic copies of responsive documents that contain confidential information. I indicated that in the limited time allowed by EPA to respond to the Request, it was impossible to verify whether any of the CBI documents were ever disclosed to the public. I further indicated that Pharmacia would investigate to determine whether any of the CBI documents had previously been made publicly available, and that Pharmacia would notify the EPA if it learned that any of the CBI documents was previously disclosed. As a result of its investigations, Pharmacia has determined that the following document was made publicly available in a September 16, 1997, filing to the Securities and Exchange Commission: September 1, 1997, Distribution Agreement between Monsanto Company and Solutia, Inc. Accordingly, Pharmacia withdraws its CBI request with respect to that document; Pharmacia maintains its CBI request with respect to every other document listed in my April 11, 2011, correspondence. I am enclosing two compact discs that reflect this change in CBI treatment by removing the 1997 Agreement from the CBI disc and including it on the non-CBI disc.

Very truly yours,

Michael L. Robinson
